### THE TEAM

#### STUDENTS:

**Irina Bercu , 10<sup>th</sup> A**

**Arthur- Mihai Niculae, 12<sup>th</sup> F**

#### TEACHERS:

**Corina Vint ( principal)**

**Carmen Minca**

**Andreea Dumitru**

**Iulia Manicea**

October 16th marks the beginning of the Romanian Master of Physics' 4th edition and the 2nd edition of the Romanian Master of Informatics. Measuring of success is a subjective matter that some contestants argue that is represented by using both a perfect algorithm and conducting an impeccable experiment.

The contestants, whether they arrived yesterday, or just today, had the opportunity to catch a glimpse of the mesmerizing views that Bucharest has to offer, especially to tourists who visit it for the first time.

After a long, exhausting trip, the contestants had a great time during the first day spent in Bucharest, with the aid of the cheerful guides. While some of them enjoyed a relaxing stroll around the city and a breath of fresh air from popular tourist attractions such as Herastrau or Cismigiu Park, others had the chance to socialize over a cup of hot and delicious coffee at chic cafes with free Wi-Fi.

After a nourishing lunch came the long-awaited visit at "Grigore Antipa" National Museum of Natural History, visit filled with intriguing facts and fascinating animal taxidermy displays.

When students were asked about what career they want to pursue in the future, the opinions were divided. For instance, some of the participants wish to remain in their home country and to continue striving to achieve their full potential while others share the opinion that the upbringing and the educational system, that countries like UK or USA benefit from, are vital factors for their career goals.

The next thing on the list was the opening ceremony held at A.S.E., the time in which all the candidates got the chance to meet their competitors as well as make to new friends. The ceremony, hosted by the students Teodora Ciocan and Robert Muntean, started at 6:30 pm with a few short speeches from the organizers, "Tudor Vianu" National High School of Computer Science 's esteemed principals, Corina Vinț and Dan Ciupercă, Bucharest's prefect, the general school inspector, and a few University professors.

Afterwards, each and every team was given a warm welcome and, in an intense round of applause, the first day came to an end and thus, we wish all the competitors the best of luck for the next couple of days and a joyful stay in Romania.
